

PLANTING CERTIFICATE

**This certificate is to confirm that
PHARMARON UK LTD**

has planted 171 trees through RED2GREEN, an environmental initiative operated by GiftTrees, in partnership with REDBOX

As a member of RED2GREEN, Pharmaron UK Ltd is helping change the lives of communities across the developing world

Offset The Carbon Footprint

Each tree we plant in the developing world effectively counterbalances up to 1 tonne of CO2 during its 40 year lifetime

Reverse Desertification

Plant a tree on deforested land and the root systems draw water to the surface and regenerate the soil

Provide Food For Underprivileged Children

By planting fruit trees in Africa, Asia or South America you help provide sustainable sources of food for the communities who plant them

Education In The Developing World

Educate farmers and their communities about agroforestry, learning how to manage their farmland efficiently to ensure maximum sustainable yields year after year

GiftTrees wishes to thank Pharmaron UK Ltd for their commitment to reduce Carbon Dioxide levels in the atmosphere and for their support of poverty reduction
